

# ART 360 : Photography II

This course requires students to refine techniques introduced in [ART 260](#) and expand their knowledge of the camera, printing and various photographic methods, including digital imaging, artificial light and color photography. This course also emphasizes the development of a photographic style and the creation of a cohesive body of work. A manually adjustable, interchangeable lens digital camera is required. (A digital single lens reflex camera [DSLR] with a normal [non-wide/non-telephoto] prime [non-zoom] lens is strongly recommended.)

**Credits** 4

**Prerequisite Courses**
