

ENV 302 : Community-Based Project II (+lab)

This course is the second, required component of the Community-Based Research Project. Students continue the yearlong analysis of a local environmental issue with detailed fieldwork and extended site visits, developing important skills in group oriented tasks. Students must enroll in both [ENV 301](#) (fall) and ENV 302 (spring) in one academic year. A \$50 lab fee will be charged.

Credits 4
